

**Graduate Research Assistantship:
MSc Student - geospatial site type classification systems for forest nutrition
management**

Announcement: We are seeking a MSc student to work with an interdisciplinary team of scientists to develop quantitative geospatial site type classification methods and tools for forest nutrition management in the Inland Northwest. The project is funded by the Agenda 2020 program and includes collaborators from the USDA Forest Service, the University of Idaho Intermountain Forest Tree Nutrition Cooperative and Geospatial Laboratory for Environmental Dynamics, the Idaho Geological Survey, the USDA Natural Resources Conservation Service and forest land management industry partners (e.g. Potlatch, Forest Capital Partners). For a more detailed description please see the announcement posted at: http://www.cnr.uidaho.edu/forres/Finan_Aid/assistantships.asp

How to Apply: To apply for this position, please email the following to Paul Gessler; paulg@uidaho.edu and Mark Coleman; mcoleman@uidaho.edu : (1) your CV (including GRE scores and percentiles; TOEFL scores for international applicants); (2) undergraduate transcripts; (3) a 1-2 page description of your research interests and career goals including a description of your technical and personal qualifications for this position; and, (4) contact information for three references. Inquiries are welcome. Applicants who make the initial screening will also be required to apply for admission to graduate school at the University of Idaho.

Application Deadline: June 15, 2009. However, applications will be considered until the position is filled.

Starting Date: Availability is preferably no later than August 2009.
